Instalaciones Eléctricas

A photograph showing a complex network of grey PVC sanitary pipes installed on a construction site. The pipes are laid out on a wooden formwork floor, with a dense grid of steel reinforcement bars (rebar) overlaid on top. The pipes include various fittings such as elbows, tees, and straight sections. Some pipes are secured to the rebar with blue zip ties. The background shows the typical construction environment with wooden panels and metal structures.

Instalaciones Sanitarias

An interior view of a room with a prominent red wall. The floor is made of polished wood. There are several windows: a large one on the left and two vertical ones on the right. A modern, glowing pendant light hangs from the ceiling. The SOLEXCOM logo is overlaid on the red wall.

Sistema Drywall

A photograph of a classroom or study area. The room features rows of light-colored wooden desks with drawers, arranged against a light blue wall. Above the desks, there are several large, light-colored wooden cabinets mounted on the wall. The floor is a light brown color. A long fluorescent light fixture is visible on the ceiling. A watermark logo and text are overlaid on the image.
